- (3) Beyond 75 feet of intersecting #streets#, the provisions of paragraph (c) of Section 23-621 shall apply. The width of any dormers provided pursuant to the provisions of paragraph (b)(1) of this Section shall be included in the aggregate width of all dormers.

Maximum building height

The height of a #building or other structure# shall not exceed the maximum building height or the maximum number of #stories#, whichever is less, as shown on Map 5 (Maximum Building Height Within Subdistrict A) in the Appendix to this Chapter. However, within 75 feet of the intersection of the southerly cross street with Redfern Avenue, and within 75 feet of the intersection of the northerly cross street with Redfern Avenue, the maximum height for #buildings or other structures# shall be ~~not exceed maximum height of six #stories# or 65 feet, whichever is less. Any such 65 foot or six story maximum building height limit falling within 300 feet of Mott Avenue shall only extend to a depth of 25 feet off of Redfern Avenue, after which the maximum building height and number of stories shown on Map 5 shall apply.~~

136-315

Maximum building height and horizontal dimension for tall buildings

Within the area labeled “Tower Location Area” on Map 5 (Maximum Building Height Within Subdistrict A) in the Appendix to this Chapter, the height of a #building# may exceed the height limits specified in Section 136-314 (Maximum building height) only as set forth in this Section. Any portion of a #building# above a height of 125 feet shall hereinafter be referred to as a “tower.”

- (a) Towers shall be located within portions of #zoning lots# bounded by intersecting #street lines# and lines parallel to and 200 feet from each intersecting #street line#.
- (b) Towers shall be separated from one another by a minimum distance of 60 feet, measured in all horizontal directions.
- (c) The outermost walls of each #story# of a #building# located entirely above a height of 125 feet shall be measured in plan view and inscribed within a rectangle. The maximum length of ~~two sides of~~ such rectangle shall be 170 feet. The maximum length of ~~the two sides~~ any other side of such rectangle shall be 100 feet. For the purposes of this Section, #abutting# portions of #buildings# above a height of 125 feet shall be considered a single tower.
- (d) To permit portions of a #building# to rise from grade to a tower portion without setback, the setback provisions of Section 136-313 (Minimum and maximum base height) shall not apply to any portion of a #building# located within 100 feet of intersecting #street lines#.
- (e) The maximum height of a tower shall be 155 feet or 15 #stories#, whichever is lower.

Streets and public open spaces

136-321
Certification

The requirements of this Section shall apply to #zoning lots# containing #developments# or #enlargements# within the current or former Downtown Far Rockaway Urban Renewal Area. No building permit shall be issued for any #development# or #enlargement# until the Chairperson of the City Planning Commission certifies to the Department of Buildings that such #development# or #enlargement# complies with the provisions of this Section.

The Chairperson shall certify that:

- (a) all publicly accessible open spaces adjacent to the proposed #development# or #enlargement# comply with the provisions of Section 136-324 (Publicly accessible open space requirements);
- (b) the location of private streets adjacent to the proposed #development# or #enlargement# complies with the provisions of Section 136-323 (Private streets); and
- (c) for any portion of Subdistrict A outside the area of the proposed #development# or #enlargement# for which a certification pursuant to this Section has not been obtained, the applicant has submitted sufficient documentation showing that the #development# or #enlargement# that is the subject of this certification, and any associated private streets and publicly accessible open spaces required to be constructed in conjunction with such #development# or #enlargement#, shall not preclude such undeveloped portions of Subdistrict A from complying with the provisions of Sections 136-323 and 136-324 under future certifications pursuant to this Section.

All required private streets and publicly accessible open spaces, once certified in accordance with the provisions of this Section, shall be duly recorded in the form of a signed declaration of restrictions, including provisions for the maintenance and operation of such private streets and publicly accessible open spaces, indexed against the property, binding the owners, successors

and assigns to provide and maintain such private streets and publicly accessible open spaces in accordance with the plans certified by the Chairperson. Such declaration, or any maintenance and operation agreement with the City or its designee executed in connection therewith, shall require that adequate security be provided to ensure that the private streets and public access areas are maintained in accordance with the declaration and any related maintenance and operation agreement and are closed only at authorized times. The filing of such declaration in the Borough Office of the Register of the City of New York shall be a precondition for the issuance of a building permit.

In addition, the private streets and publicly accessible open spaces integral to the #development# or #enlargement# of a #building#, as indicated in the plans certified by the Chairperson, shall be recorded on the certificate of occupancy for such #building# by the Department of Buildings. The recording information of the declaration of restrictions shall be included on the certificate of occupancy for any #building#, or portion thereof, issued after the recording date.

The property owner shall be responsible for the construction and maintenance of all required private streets and publicly accessible open spaces on the #zoning lot#. No temporary or final certificate of occupancy shall be issued for any #building# adjacent to such private street or publicly accessible open space until all required improvements are completed, except as set forth in a phasing plan that has been incorporated in a signed and duly recorded declaration of restrictions, and that has provided for interim improvements and access where these do not present conflicts with construction, staging, or public safety.

136-322 **Sidewalk widening**

For #buildings developed# or #enlarged# after [date of adoption], where the #development# or horizontal #enlargement# fronts upon designated #streets# as shown on Map 8 (Sidewalk Widening) in the Appendix to this Chapter, the provisions of this Section shall apply.

A sidewalk widening is a continuous, paved open area along the #street line# of a #zoning lot#, located within the #zoning lot#. A sidewalk widening shall be provided along #streets# as shown on Map 8, to the extent necessary, so that a minimum sidewalk width of 13 feet or 18 feet, as applicable, is achieved, including portions within and beyond the #zoning lot#. Such depth shall be measured perpendicular to the #street line#. Sidewalk widenings shall be improved as sidewalks to Department of Transportation standards, at the same level as the adjoining public sidewalk and shall be directly accessible to the public at all times. No #enlargement# shall be permitted to decrease the depth of such sidewalk widening to less than such minimum required depth.

Lighting shall be provided with a minimum level of illumination of not less than two horizontal foot candles throughout the entire mandatory sidewalk widening. Lighting fixtures installed by the Department of Transportation within the #street# adjacent to such sidewalk widening shall be included in the calculation of the required level of illumination.

Where a continuous sidewalk widening is provided on the #zoning lot#, along the entire #block# frontage of a #street#, the boundary of the sidewalk widening within the #zoning lot# shall be considered to be the #street line# for the purposes of Sections 136-22 (Height and Setback Regulations) and 136-31 (Special Height and Setback Regulations Within Subdistrict A).

136-323

Private streets

However, if the centerline of the new street is not within five feet of the extended centerline of Brunswick Avenue, then the easterly curb of the new street shall be greater than 50 feet from the extended line of the westerly curb of Brunswick Avenue.

- (b) A southerly cross street shall connect Redfern Avenue with the central street, intersecting Redfern Avenue within the 170-foot wide area shown on Map 6. However, if the centerline of the new street is not within five feet of the extended centerline of Dix Avenue, then the northerly curb of the new street shall be greater than 50 feet from the extended line of the southerly curb of Dix Avenue.

- (c) A northerly cross street shall connect Birdsall Avenue with Bayport Place, intersecting Redfern Avenue so that the centerline of the new street is within five feet of the extended centerline of Birdsall Avenue and within five feet of the centerline of Bayport Place.

- (c) will not unduly increase the #bulk# of any #building# or unduly obstruct access of adequate light and air to the detriment of the occupants or users of #buildings# on the #block# or nearby #blocks#, or of people using the public #streets# and other public spaces; and
- ~~(d) will not create traffic congestion in the surrounding area.~~
