

**We support the permanent preservation of Green Valley Community Garden as a NYC Parks Department Green Thumb Garden. Located on Brooklyn block 3857, lots 1, 24, 25, 26 and 27 at 93 New Lots Ave since the days when Rudolph Giuliani was Mayor, Green Valley is a key Brownsville institution that provides fresh produce, science education, open space and recreation to our neighbors. As members of the Community District, we were very pleased that the Mayor's Office announced that Green Valley would be permanently preserved in December 2015. We are disheartened to learn that only lot 1, a paltry 21.67' x 85.58', has been transferred to NYC Parks. We urge you to transfer the remaining lots where the bulk of the farm and greenhouse are located.**
