Attn:
Roland Chouloute
GREENTHUMB

Dear Roland,

On behalf of Pastor Timothy and the Celestial Church Buffalo Center, I would like to offer my support to their project. As you know, Brooklyn has been developing more green spaces for communities and it has proven to be an amazing step in beautifying our neighborhoods, educating our residents about environmental issues and providing safe spaces for people to gather among many other benefits. I have been working closely with Pastor Timothy to help him develop his vision and plan and I truly believe his group can contribute to this great movement. In addition to moral support, 462 Halsey Community Garden is ready to offer volunteers, tool lending and plant sharing for this project.
